RE: California Appliance Efficiency Regulations – Air Filter Marking and Certification

The California Appliance Efficiency Regulations contain marking and certification requirements for air filters that become mandatory on April 1, 2019. As currently written, these requirements cannot be implemented. California Energy Commission staff intends to initiate a rulemaking in order to address these issues.

Subscribe to the Appliances list server, at <http://www.energy.ca.gov/appliances/>, to be notified of activity related to air filter marking and certification.
